FOSTERING ENVIRONMENT AND ECONOMIC PROGRESS WITH PLASTIC PRODUCTS PROTECTING OUR ENVIRONMENT

RECYCLABLE

Plastic can be easily reused time and time again for other purpose and bags recycling programs at super mall and city curb side pick-up options are both growing.

GLOBALLY ACCEPTED:

Globally accepted because every lifecycle assessment of carry out bags that has ever been done shows that the traditional plastic bag is the most environmentally friendly reuse option at the country, As long as it is disposed of properly. We are proud to manufacture products that meet those standards.

But we can always do more to REDUCE, RECYCLE and REUSE.

ENVIRONMENT IMPACTS:

The conventional plastic bags is the one with the least environment impacts compared to paper or any other form of the bag.

PROTECTING OUR ENVIRONMENT:

It is imperative that plastic bags are reused, recycled or disposed of properly. We are committing ourselves to these efforts and more in the coming years.
